

Hu Open Air Website – Accessibility Statement

Statement updated on 23/09/2025 based on a self-assessment conducted by the provider.

Hu Holding SpA (the “Company”) is committed to making its website accessible, in accordance with Law no. 4 of January 9, 2004, and Legislative Decree 82/2022.

This accessibility statement applies to the following Hu Open Air domain: <https://huopenair.com>

General Information

Subject of the statement: Website

Website name: Hu Open Air Website

Technical specifications used: WCAG 2.1

Conformance status: Partially compliant

This website is partially compliant with the requirements of Appendix A of UNI CEI EN 301 549 due to the non-compliance cases listed below. The company is not legally bound by the scope of the Stanca Law (Law 4/2004), and this statement is made voluntarily. The Company is committed to making non-accessible content compliant with the applicable standards.

Non-accessible Content

- The page language is always declared as English in the code, even when browsing in Italian, which affects reading and pronunciation of elements.
- There is no mechanism to skip directly to the content when using assistive technologies (Bypass block).
- Page headers do not follow a hierarchical order and the main heading (H1) is sometimes missing.
- Several essential interactive elements are not accessible via keyboard, such as back buttons.
- Content is only accessible through category navigation, with no search or alternative menu options.
- Links with generic labels do not clearly indicate their purpose, making them hard to understand with assistive technologies.
- Several interactive or textual elements do not meet the minimum contrast ratio of 4.5:1. Some non-textual elements also fall below the 3:1 contrast ratio.
- The focus state of some buttons is not clearly visible, making keyboard navigation difficult.
- Carousels do not offer accessible alternatives to swipe gestures, preventing interaction via keyboard or assistive tools.
- Error messages in form fields are not properly announced by assistive technologies.
